I really enjoyed this project, not just because we talked about a serious matter in this world, Gender Equality, and because we were free to actually create strong friendships that I think will last for a long time! I really enjoyed my time in Kaunas, thanks to my host, Lina and to all the friends that I met through this project. Thank you for being so nice to us and hopefully, we will meet again! 💕

You can't imagine how great I felt during this project! By the fact that we became good friends, we were able to convince other children to apply for the next mobility. I can't wait to see you again, even though it probably wouldn't be soon. I hope we can keep in touch, and visit each other. 💕💕

I wanted to share my wonderful memories from Lithuania. I had an unforgettable adventure there and met wonderful people with whom I was able to become friends. We visited various places and baked popular Lithuanian food (Kibinai). It was a fantastic trip where I was able to improve my English. Of course, I learned a lot about gender equality. I would go back for the Erasmus project. Zofia, Poland

Hi everyone!

Mobility to Lithuania was a wonderful experience. I met many wonderful new friends, learned about their culture, and a lot about gender equality. We visited many beautiful places in Lithuania. I believe the friendships we made will last forever and all memories we made are very special and wonderful 💕

I can't wait to see you again 💕🤗
